Info: Brand New State of the Art Digital Billboard. The 1st Digital Billboard on Hwy 74 in Jackson County. Viewed from East heading West just before Exit 85 in Sylva. This billboard would hit all businesses in Sylva, Western Carolina University, plus traffic heading towards Cherokee/Bryson City. Client can use Multiple Messages without any Production cost. Client can also utilize social media. We have contract lengths from 1 day to 1 year and everything in between.

Relevant Messaging

Day Parting: Reach consumers with real time relevant messaging by rotating multiple pieces of creative based on the time of day.

Countdowns: Our billboards know the current day and time. The board can count down to a specific day or time. The countdown updates with every rotation of the board.

Dynamic Content

Our digital billboards give advertisers the advantage of delivering real-time information in your ads. Such as, weather and stock quotes interest rates and news headlines.

Interact with your consumers through Social Media sites that can be broadcast directly onto your digital billboard
